

## WE HAVE DECIDED TO PROTECT THE ENVIRONMENT!

In order to produce a kilowatt hour, fossil fuels are burned and high quantities of CO<sub>2</sub> are consequently emitted in the atmosphere.

The production of clean energy avoids the CO<sub>2</sub>-emissions in the atmosphere.

Thanks for having decided to use energy coming from renewable sources: you are helping us to improve our environment and to give a better future to the younger generation.

### LEGOPLAST SRL

has avoided the emission of 32,7833 tons of CO<sub>2</sub> thanks to 100 % Energia Pulita Dolomiti Energia.

## ENERGY COMING FROM THE DOLOMITES

“100% energia pulita Dolomiti Energia” means using the power that nature gives us: an energy coming from renewable sources, which is traced by Gestore dei Servizi Energetici through GO (Guarantee of Origin) licenses.

## ENERGY ORIGIN IS GUARANTEED

100% energia pulita Dolomiti Energia is the Italian energy which is traced by Gestore dei Servizi Energetici, an independent organization that guarantees the energy origin through issues of licences, e.g. the Guarantee of Origin (GO). The certificates' invalidation attests consequently that the energy comes from renewable energy sources' plants.

## WE HAVE DECIDED TO PROTECT THE ENVIRONMENT!

Gases production and consumption is one of the the largest greenhouse gas emitter: high quantities of CO<sub>2</sub> are emitted in the atmosphere because of these activities.

With *Gas 100 % Compensa CO2* you can face the challenge with global nature.

Thanks for having decided to balance CO<sub>2</sub> emissions with your natural gas consumption: you are helping us to improve our environment and to give a better future to the younger generation.

### LEGOPLAST SRL

has avoided the emission of 22,0408 tons of CO<sub>2</sub> thanks to Gas 100 % Compensa Co<sub>2</sub>.

## FACE THE CHALLENGE WITH GLOBAL NATURE

“Gas 100 % Compensa CO<sub>2</sub> Dolomiti Energia” means balancing CO<sub>2</sub> emissions coming from natural gas consumption through the co-funding of an ad-hoc project.

In this way, you face the challenge with global nature and the environment thanks you.

## PROJECTS' ASSURANCE

Projects are guaranteed by institutional bodies like NGO and international organizations. Every project generates CO<sub>2</sub> credits that permit to issue VER (Verified Emission Reduction) certificates with two main labels: Gold Standard or VCS (Verified Carbon Standard).

Their standards are recognized internationally and these certificates are awarded to projects that decrease greenhouses gases' emissions.
